The Baltimore court began its inquiries last spring, but after an interruption of several months was again convened about three weeks ago. It was found impractical to secure the attendance of the four St. Louis witnesses, and the appointment of an auxiliary court with full jurisdiction in St. Louis court were the Very Reverend Father F. ENORMOUS ASSEMBLAGE OF BEAUTY AND FASHION AT THE HORSE SHOW LAST NIGHT.

Largest and Most Appreciative Attendance Ever Seen at a Popular Function in St. Louis-Mr. Busch's Splendid Four-in-Hand Caught the Crowd.

There never was such a horse show night in St. Louis as that of Friday at the Collseum. In point of numbers, style and quality of assemblage, the attendance far and away surpassed any congregation scen anywhere at any time in this city. More than 10,000 persons, all arrayed in their best and looking as well as nature and reason able art could make them, saw the greatest show ever given in a ring in the West. Everything went off in the most charming and easy manner, the show did not drug for an instant, and every one voted it one of the most agreeable evenings of pleasure he had ever spent.

The ladies were simply immense. Dear knows the pean of local beauty is an old and worn story in every city, and it may sound stale here, but it is none the less a fact that never were so many pretty giris thrown together. The dresses were not so fine, for tanbark dust and chaffy grime of hine, for tainbark dust and chaffy grime of stables are not calculated to improve fine gowns, and women sensibly go in for some-thing more useful than the feathery things that men most like. But the sheer una-dorned beauty of the girls—particularly the younger girls—was simply amazing. For upon tier it swelled and rose and undulated and fell, always beautiful, wonderful and perplexing.

The men were there, too, looking their best. Then there were the horses doing their best.

First in importance to St. Louisans was the runabout class. Postmaster, the gray Canadian pony, shown by Mr. Murray, won, with Mr. Watson's horse second, and Mr. Caliboun's McL. third, with Judge McFarland highly commended. McL. was beaten and beaten badly for the first time in a St. Louis ring. He looked well and made a very good and clever showing, and it did seem that he looked the ideal runabout type. He has runabout stamped all over him, particularly over his neck and should-ers. He is at home in it, though many said he would look better in the petite victoria.

in which he won the brougham class.

Postmaster is a very small gray horse, edging on the pony class, and scarce filled the shafts of the runabout as he should have done. But he has a tremendous turn of handy speed in a small ring and steps miles high. He certainly is a grand goer, one of the highest and cleanest steppers ever seen here.
On performance and manners he had Mcl.

beaten a mile. His speed just suited the ring, and he can step all over any horse at the show. He made a hit with the crowd, and the applause that greeted him was the loudest, longest and most enthusiastic of the show. the show

the snow.

Mr. Watson's horse made a very fine showing and deserved his place. He is a good runabout horse. They gave McL. third, and while the writer always does love to see a champion dethroned, it did seem that this horse is the truest runabout type of the lot. His manners were not so bad, even if he did pull a good bit, and Mr. Calhoun's man gave him a good drive, though he must have been worried by the amount of coaching he got.

McL, in the remarkably fine petite vic-toria, ran away with the single horse to brougham class, winning it easily from Mr. Drummond's Billy and Mayor Wells's Char-les

The impeccable tandem pair His Eminence and Woodbine, won the tandem for the account time, and won it far out. Mr. Busch's Marie and Edna made a swell showing. They are a grand and wholesome pair of gentleman's mares, and deserved the second that they got.

She is very taking, very clever, very showy, very true, but very small for a gentleman's saddle mare. Bob Hisey got a bully good show out of what should be a great horse if he would quit fighting the bit, Red Bud. He is a eautifully legged animal and made a great beautifully legged animal and made a great showing all the way. The class was poor indeed, but Masterpiece only got a yellow ribbon. He seemed to deserve more, but the judges will not place him above those horses that have beaten him so far. The high school class was cut out and will be taken up to-night. Also the special high school ring for the Anderson prize, the conditions of which are so very prop-erly exacting that there is scarce a high school herse in America that can come up to them.

erly exacting that there is scarce a fliga school herse in America that can come up to them.

Mr. Busch's team in the four-in-hand was simply superb, and his coach was, windout doubt, the pretilest ever seen in a road. It was bottle-blue all through; a beautifully built coach, and with four bays of grand action and weight in it was a coach that would win anywhere they have a coaching class. It was the finest outfit ever seen in a ring. It was so good that when the judges gave it the blue ribbon Mr. Bratton, who seldom loses a coaching ring he had his best lot here—applauded the decision as loudly as the most rabid Busch adherent.

cision as loudly as the most rabid Busch adherent.

Mr. Bratton took second with his great road team, four splendid steppers, with lois of bone and power, and Mr. Watson took third. This was a remarkably brilliant ring and the tout ensemble of Mr. Busch's turnout was so refined, subdued, yet so rich and solid, that every one got up and applauded. Mr. Busch drove his team as a gentleman should, sedately and cleverly, hands well down and in close, not reaching, changing or grabbing, little whip and lots of judgment. So far Mr. Busch has been the success of this show in so far as a man can be a success at a Horse Show.

ment. So far Mr. Busch has been the success of this show in so far as a man can be a success at a Horse Show.

Mr. Bratton got back at Mr. Busch by winning the unicorn team with that grand green borse. Woodbine, in the lead. This fellow himself was good enough to pull any team through. He is the most remarkable green horse ever seen in a show. The horse that beats him in the championship tonight will be the winner, though South Africa and British Lion are wonders. This horse makes the old Bratton champion, Sampson, who died the other day, look bad and staggy.

There were two potato races. The amateurs—Messrs. Watson, R. Orthwein, T. Wilkinson, Murray and Bartle—had a very nice race. Young Mr. Bartle, by clever and daring riding, won it away off in front. He was on a bay polo pony and rode him remarkably well, indeed. It looked like a good performance for this handsome young gentleman until Mr. Mulhall's cowboys came along with their race.

Then it was that a swarthy fellow in overalls and a month's growth of beard, most unhandsome to look at, but the very devil to ride—Mexican Charley was his name—made the handsome Bartle look 70 cents shy of a dollar.

The way that Mexican pleked his potatoes, dodged opposing competitors am got them into the bucket, was astonishing. While the gentlemen riders were lucky to get on a potato in ten minutes, this fellow was putting two in to the minute, though the riding was far fiercer than among the gentlemen. Still Mexican Charley did not get the prize. But the black son of Cids made the young swells poor indeed, for he robbed them of that which did not enrich him—the bauble, reputation—which might be worth so much to them in the eyes of some pretty maiden in the bare. Sure Pop, the great Canadian jumper, whom Crow and Murray own, won the high jumps, four jumps over five feet. He made a nice performance, hitting but one bar once. He pitches on his toes and is not of the hunter type, but is a good high jumper.

of the hunter type, but is a good mga jumper.

By the way, Mr. Murray swears that he did seven feet four at Nashville, and adds that it will be allowed, too, something which the Horse Show papers say it will not be. Mr. Bratton's The Burgiar, a very good gray, was third.

This fellow jumped in true hunting style, with great determination, power and surety, and carried himself straight, flew his fence and landed safely, but hit one fence badly as he took off too soon. He is a better hunter type than Sure Pop, though scarce as good a high jumper. Rupert, a handsome black horse, did very well in the pop-

All Horse Show Records Have

Been Eclipsed. New York, Nov. 1.—Entries for the national horse show, which opens in Madison Square Garden November 18, have closed. The list numbers 1434, the largest on record, the next being 1,381 last year. The light harness and carriage horses, saddlers and trotters show a slight falling off. The entries of the four-in-hands are fifty-four.

ASKS FOR A CONFERENCE.

House Asks Council to Name Committee on Fender Legislation.

mittee on Fender Legislation.

The House of Delegates last night requested the City Council to appoint a conference committee for the purpose of considering fender legislation. Speaker Cronin appointed Mesers, Burke, Gazzolo and Fontana to represent the House. The House's request will be read at Tuesday's meeting of the Council.

Chairman Howard of the Committee on Railroads reported the Boyce fender bill and recommended that it be rejected, and that the House ask for a conference committee to take up the subject of fender legislation. Messrs, Karbe, Murrell and Oberbeek voted against the report. All other delegates, including the anti-majority members, voted for it.

Hesuits from former conferences, Mr. Murrell declared, were so fruitless that he could see no reason to expect any good from continuance of the conference custom. "This conference will go up in smoke, like other conferences," he remarked, Mr. Reiss pleasantly told Mr. Cronin that he was willing to vote "Aye" and give the House a chance to be good. The remark was accepted with good grace.

Mayor Wells transmitted several vetoed bills providing for public improvements according to sections of the City Charter that were amended October 22. On motion of Mr. Geraghty the House sustained the vetoes.

The following bills, asproved yesterday
